## FULLSTACK DEVELOPER

### Full-Stack JavaScript Developer | 4+ Years of Experience | React & Next.js | Node.js & Express

Skilled and reliable Full-Stack Developer with over four years of experience building and maintaining modern web applications using JavaScript, React, Next.js, and Node.js. Comfortable working across the entire stack, from responsive, accessible front-end interfaces built with Typescript and Tailwind CSS to scalable back-end APIs using Express.js and RESTful architecture.

## WORK EXPERIENCE

---

### Mahjeq Restaurant Ordering Web App

10/2025 – 11/2025

#### Frontend Engineer

Built the complete frontend for a fullstack restaurant ordering platform used by a real restaurant for customer food orders. Collaborated with a backend engineer using detailed API documentation to deliver a seamless end-to-end experience.

- Developed full user flow including menu browsing, cart system, checkout, and order history.
- Implemented **delivery vs. pickup options**, including **Google Maps integration** for store location on pickup.
- Built **OTP-based order verification** and generated dynamic **order slips** after successful payment.
- Designed and built the **Admin Dashboard UI** for managing menus, users, orders, and order states, including analytics and charts.
- Optimized performance using **Next.js Validate** for frontend and backend caching, reducing unnecessary API calls.

### Ajopay - Cooperative Savings Platform

06/2025 – 08/2025

#### Backend Developer

Worked on the backend development of **Ajopay**, a cooperative and Ajo savings platform designed to automate group savings, payout management, and direct debit processing.

- Built RESTful APIs using **Node.js** and **Express.js** for user authentication, savings cycles, and payout management.

- Implemented **JWT-based authentication** and middleware for secure route protection and user validation.
- Designed and managed relational data models using **Sequelize ORM** and **MySQL**.

## **Datoothsome Hub**

12/2024 - 01/2025

### **Full-Stack Developer**

Built and deployed a modern cake e-commerce platform that allows users to browse, order, and make secure payments online.

- Built responsive **user interfaces** using **React.js** and **Tailwind CSS** for smooth navigation and product display.
- Developed **RESTful APIs** with **Node.js** and **Express.js** to manage authentication, products, and orders.
- Designed and maintained database structures using **Sequelize ORM** and **MySQL**.

## **Tech Care**

03/2023 - 04/2023

### **Frontend Developer**

Developed a web-based healthcare platform that helps clinics manage patient information and health records efficiently.

- Built the application using **React**, **Vite**, and **TypeScript** for enhanced performance, type safety, and maintainability.
- Designed a **responsive and intuitive interface** tailored for healthcare professionals.
- Integrated APIs to fetch real-time medical data, ensuring up-to-date accuracy for medical records.
- Implemented features to track **patient profiles**, diagnosis history, blood pressure logs, and lab results.
- Collaborated with backend services to maintain smooth data synchronization and reliable performance.

## **NAPTIP CDS Group – NYSC (National Youth Service Corps)**

08/2024 - 04/2025

### **Frontend Developer**

Designed and developed a responsive website to support the NAPTIP Community Development Service (CDS) group's mission against human trafficking.

- Built the website using **React**, **Bootstrap**, and **Firebase** for modern design and real-time content updates.
- Enhanced the group's **online visibility** and access to anti-human trafficking resources.

- Implemented a **responsive layout** and intuitive navigation to improve user experience.
- Integrated **Firebase hosting** for dynamic data management and seamless content delivery.
- Developed sections for **news, events, and awareness campaigns** to boost community engagement.

## EDUCATION

---

**The Federa University of Technology Akure - Ondo, Nigeria**

Bachelor of Science – Building Technology, May 2024

## PROFESSIONAL SKILLS

---

- Proficient in **HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, and Node.js**.
- Experienced with **Express.js, RESTful APIs, and Sequelize ORM** for backend development.
- Strong understanding of **UI/UX design principles** and responsive web design using **Tailwind CSS** and **Bootstrap**.
- Knowledge of **authentication and security** using **JWT** and **Firebase**.
- Familiar with **Git, GitHub, and version control workflows** for team collaboration.
- Excellent **problem-solving, time management, and communication** skills.
- Adaptable team player with a strong commitment to learning and improving product quality.

## LANGUAGE COMPETENCIES

---

- English: fluent (speaking, reading, writing)
